Fitout Hub Interiors LLC is a Team of expertised professionals in Interior Designing, 3D Renderings, Joinery, Refurbishments, Executions, Management Supplies and Consultants rendering services throughout Middle East, Kuwait and India, operating from the heart of Sheikh Zayed Road, Dubai. We provide a complete, tailored service covering each and every aspect of your project, this is why we call it HUB (A Turn Key Solution Provider). Over the years we have built up a strong network of Consultants, Suppliers and Distributors who work with us to develop the designs into bespoke products and finishes unique to each project.

Fitout Hub Interiors LLC add value to any project and increase the value of investment by working closely by understanding Client Budget and Requirements, with the help our In-house Design House, developing the overall design and working to maintain consistency and integrity throughout its execution. From project inception and design through to build and aftercare support, our dedicated and skilled team of designers, project managers and building professionals provide a one-stop office interiors solution.

Projects can vary from concept schemes through to full scale interior architectural refurbishments and decorations. Developing your project brief, We will produce concept mood, 2D Sketch, 3D rendering, sample boards, working drawings and written specifications to educate the client for clear understandings.

We create successful and impressive designs through our exacting attention to detail, an empathetic understanding of our clients tastes, ambitions and a precise awareness of timescale and budget. The result is a complete satisfaction which is not only beautifully designed but of a quality that will sustain throughout the years. Through design and creating a positive environment and visitor experience, we always strive hard to achieve and exceed our client’s expectations and business objectives.

**OUR MISSION**

As designers and key turn solution provider, we believe that our practice is acutely responsible for the wellbeing of all those who inhabit work.

We keep our minds and vision around all aspects of the design brief, structure, space planning, renderings to create an integrated system form and expression.

We think holistically to embrace our clients image and embody it in a built environment, that is distinct in its character and is of the highest integrity and quality.

**“WE THINK HOLISTICALLY TO EMBRACE OUR CLIENTS IMAGE”**

Thus denotes us as "A TURN KEY SOLUTION PROVIDER"
Every design brief has its own challenges and surprises. FITOUT HUB Interiors Designers make it their prerogative to approach each project separately with no preconceived sense of style or design. Instead, we like to treat all of our clients as individuals, preferring to allow their varying tastes and ambitions to come to the fore as we engage in the design process.

Our Design Pool Consists of Rendering Experts and Designers expertised in delivering sophisticated photo-realistic visuals of the finished design schemes of client requirement, which provides you a clear transformation of client project prior execution. Providing the best office layout or furniture solution demands careful understanding of our client's requirements.

FITOUT HUB unique interior design services encompass total, turnkey solutions for our clients' Residential, Commercial, Retail, Restaurants, Hospitals and villas etc. We design every aspect of the project from Wall to Floor, Reception to Conference, Kitchen to Bathroom, lighting to Joinery, Electrical Design to Eco Solutions. We are passionate about textures, combining materials and fabrics, deep color palettes and tailored lighting systems to create a flowing narrative from area to area producing interiors that tell a story in result.

By configuring workspaces intelligently, we help clients achieve greater collaborative working, as spaces are designed around people and their activities, as well as facilitating interaction, effective communication and knowledge-sharing. Our Designers are customer oriented and each client will be assigned with an individual designer for one point understanding, thus keeping our client at the heart of the project, seeking regular sign offs to ensure that client remains engaged in the decision making process.
FITOUT HUB co-ordinate each and every aspect of our projects from the architectural plans to exterior design, landscaping and everything in between.

Efficient site management, adherence to schedules and budgets, a flow of pertinent information to the client; these elements are critical to delivering a confident, reassured service, allowing the focus to remain on achieving the best design and craftsmanship possible.

To this end, we make sure to keep all channels open throughout every step of the project, right from pre-planning to after-care. Becoming the central point of communication, we maintain regular lines of conversation between our clients, our consultants and any other parties that may be involved. From general updates to weekly execution reports, communication is key to delivering the best results, achieving the design you desire and the quality of workmanship that we expect.
FITOUT HUB can design, supply and install a wide range of acoustically absorbent finishes to your facility’s walls and ceilings to assist sound control and enhance the acoustic environment of the areas people use for business, leisure or living.

We remained focused on educating our clients on the fundamentals of acoustical planning in the workplace. While offering practical and achievable solutions to an assignment, each project is specifically developed for the individual requirements of the client resulting in a cost-effective, value-driven, long-term solution.

We have our own exclusivity in acoustic innovation with our unique and advanced concepts. Dedicated to product development, our experienced project management and highly skilled site teams will turn the designs into reality for any application where acoustic control is required.

“FOR YOUR COMPLETE PEACE OF MIND, THE ACOUSTIC PERFORMANCE OF YOUR SYSTEM IS ESSENTIAL”
